[IPC ON THE RUN](#)

IPC on the Run is an online module series that includes an introductory module and six competency-based modules.

Introduction to Interprofessional Collaboration is an open access, interactive, self-directed module that is 100% online and provides an overview of concepts and principles related to interprofessional collaborative practice. The module takes about 30 minutes to complete and provides a foundation for further learning in the area of collaborative practice, for both pre-licensure and practicing professionals.

The six competency-based modules are designed to support interprofessional education for interprofessional collaborative practice. Each module is based on one of domains identified in the National Interprofessional Competency Framework:

1. Interprofessional Communication
2. Patient-Centred Care
3. Role Clarification
4. Team Functioning
5. Conflict Management
6. Collaborative Leadership

**Interprofessional Pain Management:
Preparatory Module**

This is a self-directed module that provides an overview of the history of pain, the mechanisms of pain, what happens when pain is transmitted, the types of pain, and the experience of pain, in order to prepare learners for participation in the 'Interprofessional Pain Management Modules'.

**Interprofessional Pain Management:
Module 1 - The Lived Experience of
Pain**

Facilitator: Jan Muir
Facilitator: Brenda Poulton

This module begins with a video of a person who has experienced pain sharing their story. The module facilitates interprofessional group discussions, leading to a group presentation, centred around this person's story.

2. Fill out the registration form. Required fields are marked with an asterix (*). After you have completed the form, click '**Create my new account**'
